DETAILED ACTION

The amendment filed on March 16, 2004, amending claims 32, 34, 41 and 74, has been entered.

Claims 32-57 and 72-76 are pending.

Election/Restrictions

Claims 38 and 40 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 32-37, 39, 41-57 and 72-76 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 32, and its depended claims, it appears that the phrase "wherein the isopeptidase activity deconjugates a modifier protein" should read "wherein the polypeptide having isopeptidase activity deconjugates a modifier protein".

In claim 32, the hyphen in "of-identifying" (line 1) and "wherein-a" (11) should be removed.

In claim 32, the JAM domain "HXHXXXXXXXXXXD" should be identified as SEQ ID NO:1.

Claim 76 appears to be redundant since the polypeptide of claim 32 recites the property having isopeptidase activity.

Response to Arguments

Applicant's arguments filed March 16, 2004, with respect to claims 32-37, 39, 41-57 and 72-76 under 35 USC 112, 2nd paragraph have been fully considered and are persuasive. The rejection of claims 32-37, 39, 41-57 and 72-76 has been withdrawn.

Applicant's arguments filed March 16, 2004, with respect to claims 32-37, 39, 41, 47-57 and 72-76 under 35 USC 103(a) paragraph have been fully considered and are persuasive. The rejections of claims 32-37, 39, 41-57 and 72-76 have been withdrawn.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 32-37, 39, 41-57 and 72-76 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over

Art Unit: 1652

claims 37-66 of copending Application No. 10/340,578. Although the conflicting claims are not identical, they are not patentably distinct from each other because a method of identifying agents that affect an isopeptidase activity of a polypeptide comprising a JAM domain and a method of identifying agents that modulate an isopeptidase activity of a polypeptide comprising a JAM domain cover an invention of same scope.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

No claim is allowed.
